Selecting the right opening

There are a few factors to consider before finding the perfect door for your home or commercial building. To help you find the right type of garage door, consider the building and space you have to work with, including the ceiling height.

Manufacturing garage doors for over 50 years, Cardale has brought many innovations and firsts to the garage door industry:

- Cardale introduced the concept of the 'panel door', from which the majority of today's garage door designs are derived!
- Cardale designed the Bedford up and over door, the first to give the appearance of traditional side hinged doors
- Timber is at the very heart of Cardale and our reputation is unsurpassed for choice and quality, with levels of craftsmanship found nowhere else

Canopy Doors

1 Up and over canopy doors are the most popular style of lifting gear in the UK with a vast range of door styles to suit. Ideally matched to where there is limited headroom for tracks.

Retractable Doors

2 An alternative lifting gear for use with up and over doors. Horizontal tracks are attached to the top of the door frame to guide the door open, providing an exceptionally smooth opening and closing action.

Roller Doors

3 Roller doors travel vertically, forming a compact coil above the opening, meaning minimum space requirements both inside and out. Slimmed down versions requiring even less headroom are available for the Thermaglide range.

Side Hinged Doors

4 Popular 'traditional' operation and ideal if there are obstructions within the garage. Excellent security and very durable construction ensure long trouble-free service.

Sectional Doors

5 Vertical opening allows 'park-right-up' convenience, whilst the extension or torsion spring operation gives a super smooth mechanism. Enclosed moving parts and push away joints to the panels make for finger safe operation.

Secured By Design Doors

- Spring assisted retractable action for smooth running
- Door slides up and over into the garage, providing safe and very reliable operation
- Factory fitted steel frames as standard 70mm wide
- All Up & Over garage doors are supplied with our black "D" handle.

Signature Range

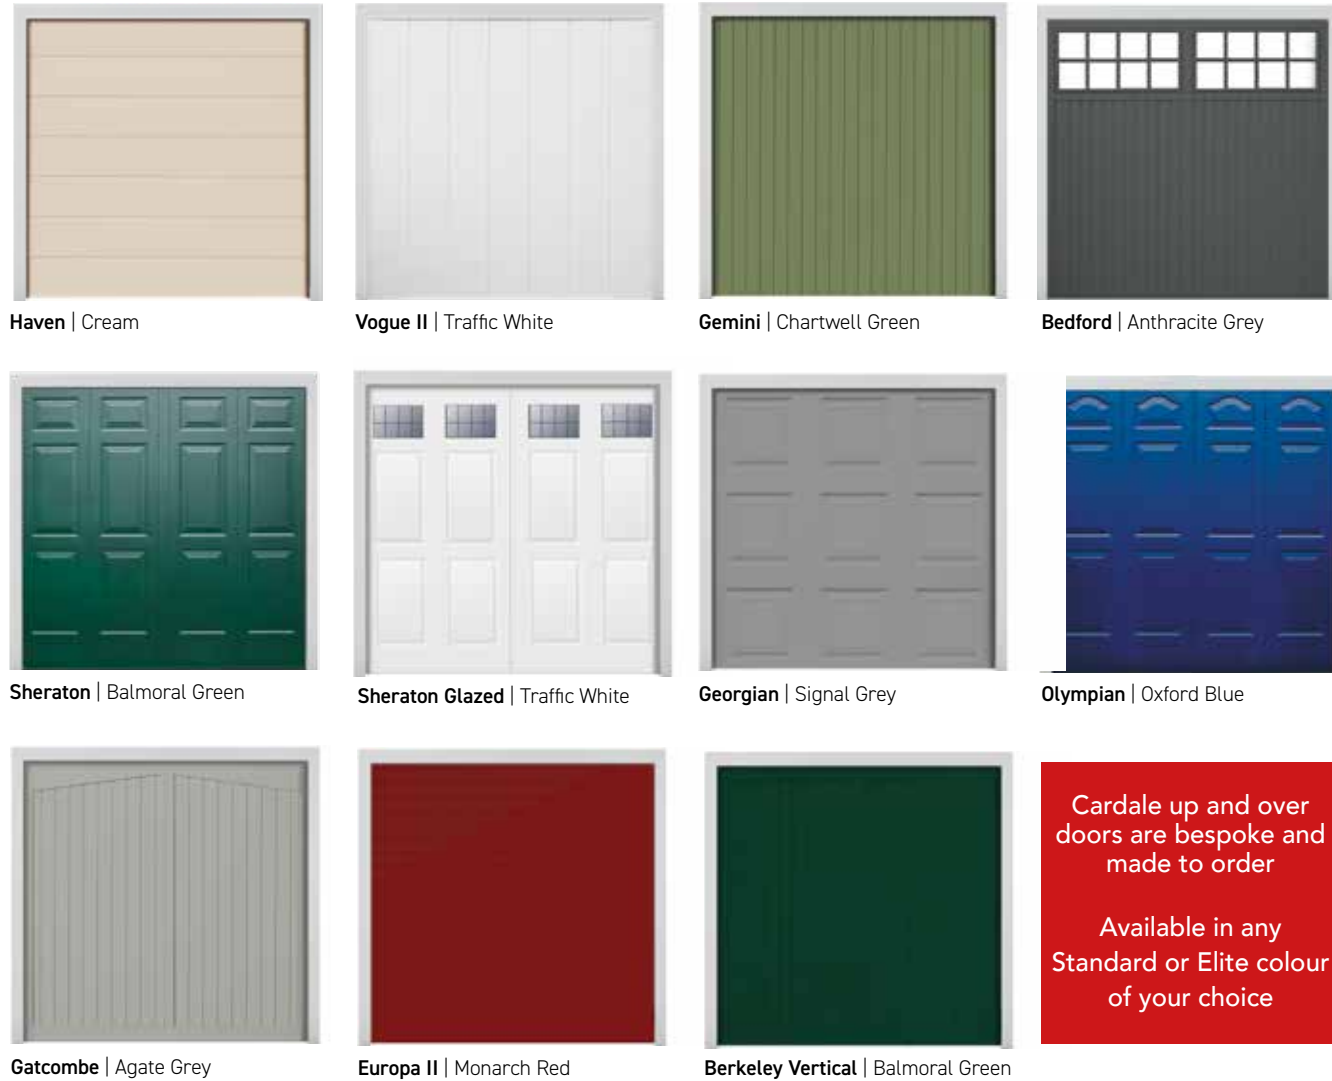

We offer RAL colour options, that are not part of our Standard or Elite colour ranges. Price on application

Notes on Colour: Door guides and boxes are available in colours matching the door curtain, except laminate door colours, (supplied in white). Coloured guide rails are supplied as standard, however, they may not match the lath colour. The manufacturing process for the lath profile results in a textured finish, whilst all other coloured items (guides, bottom laths, optional fascias and vision panels) are supplied in a satin finish, so cannot be guaranteed to match exactly. Over time some scuffing may occur on the front and rear surfaces of doors as a result of their normal operation. Accuracy of colours shown is limited by printing process. Please note that the colour of the bottom lath may vary slightly from the rest of the door.

Steel Coloured Doors

These doors are factory finished in deep textured paint to one of sixteen colours, plus white. The deep textured paint finish is incredibly durable and resistant to scuffing and comes with a ten year guarantee. Cardale up and over doors are bespoke and made to order.

Frame can be matched to the colour of the door, or supplied white as standard. Black Cardale handle fitted as standard.

Sutherland Glasswood | Ebony

Lyndhurst Glasswood | Honey Beech

Virginia Personnel | Teak

Our side hinged garage doors have GRP panels built onto individual steel frames preventing any distortion and have an additional flow coat applied to the back of every door for improved aesthetic appearance. Side hinged garage doors are manufactured with equal sized leaves and open outwards to maximise available clear space inside the garage.

As standard the right hand leaf (viewed externally) opens first - left hand leaf opening is available on request.

All side hinged and personnel doors to be ordered as an overall outside frame dimension.

Available in low maintenance Glasswhite or Glasswood incredibly lifelike timber grain effect wood tones, these doors are virtually maintenance free.

- 1** Centre style between leaves for maximum security - preventing forced entry attempts
- 2** Weather seals between frame and leaves for draught reduction
- 3** Heavy duty steel hinges for maximum security and reliable operation
- 4** Euro dead locking latch and black lever handles inside and out - as standard

Glazing Options

GRP SIDE HINGED DOORS ARE BESPOKE AND MADE TO ORDER

Thermalift Insulated Sectional Doors

Cardale insulated sectional steel doors are comprised of individual sections connected together by hinges. The door opens vertically into the garage and with no 'kick out' as it moves, providing you with up to three feet of increased drive length compared to Up & Over Garage Doors. Sectional doors are also very attractive in design - high quality materials, incorporating the latest innovations in manufacturing technology together with a wide choice of options give your garage an individual look.

Georgian Panelled | Thermalift20/45

Horizontal Rib | Thermalift20/45

Panelled Glazed | Thermalift45

Flush | Thermalift20/45/70

Large Rib | Thermalift20/45/70

Glazing Options

Our attractive glazing options not only make a feature of your garage, but also let the light in, especially appealing if you use your garage as a storage room or workshop. All Cardale glazing panels are manufactured out of weather-resistant acrylic glass or impact-resistant polycarbonate and stand out due to their high transparency. Furthermore, being double glazed panes, they have excellent heat insulating properties - just like our insulated sectional garage doors.

Cardale Aluminium Insulated Roller Garage Doors

THERMAGLIDE® 77

Thermaglide takes the concept of the roller garage door to a new level. It out-performs the ordinary garage door for ease of use, insulation, finishes, safety and security and all doors are manufactured under strict and controlled guidelines.

Practical high performance

Remote control makes operation effortless. The door is practical too - vertical travel allows "park right up" convenience inside and out and provides maximum drive through width and height for MPVs and 4x4s, gaining up to 150mm in width when replacing a conventional door and frame. It also allows the door to fit garage openings of all shapes and sizes.

- Vertically opening doors
- Fits garage openings of all shapes and sizes, even arched openings
- Made in compliance with ISO 9001 quality standard
- Helps insulate garage against heat loss and noise
- Remote control electric operation available
- For greater security the door has fully enclosed side runners, a unique 'AutoLock' self locking feature and is fully automated with no exterior lock to pick or force
- Rolling code technology helps prevent criminal 'code grabbing'
- Optional emergency opening system
- Hard wired and wireless safety systems are available

THERMAGLIDE® 55

Where headroom is especially tight, the Thermaglide 55 has all the features of Thermaglide 77 but requires only 205mm of headroom and is available up to 2.8 metres wide and 2.4 metres high.

The ultimate choice

The clean lines of the Thermaglide roller door are attractive in any setting
The colourful choice of finishes can provide either an accent or a complement to existing finishes.

Polyester Finish

High Grade Woodgrain Laminate Finishes

All colour samples depicted in this brochure are as close to the original manufacturer's colours as possible. Garage doors supplied may vary in colour from the brochure representation.

Cardale Security Best in Class

→ The combination of side runners and auto-positive locking with anti-lift geometry locking straps makes Thermaglide® extremely secure.

Cardale Steeline Roller Doors

Simple, clean lines and an excellent colour choice are just part of the appeal of the Steeline door

Manual and Automatic

→ Doors are designed for manual and automatic operation - **Easyglide spring assisted** operation ensures all doors are easy to operate by hand.

Remote Control

→ The Steeline Slimdrive remote control openers make automation easy.

More Space on your Drive

→ Vertical travel gives 'park right up' convenience.

Secure and Durable

→ The unique broad profile horizontal ribbed design is inherently very strong and very secure. Key operated twin locking bars secure the door in the closed position

High Grade Foil Finishes

→ Available with high performance Plastisol coating or a high grade Foil finish to the front face of the door and a grey powdercoat to the rear.

A colour to suit every home!

With our **Steeline Plastisol** colour collection, you can choose from a wide range of popular colours to match your own personal taste and preferences.

Steeline Foil Finishes

Steeline Doors are Bespoke and Made to Order

Twin Locking Bars for added security

Enhanced Security

→ Highly pick resistant steel lock barrel mechanism as standard on each Steeline door.

Cardale Personnel Doors

These doors are popular as a side entrance to your garage

They are pre-framed and come complete with a Euro profile night latch and deadlock and four anti-drop anchored bolt hinges per door leaf. Doors open outwards only, with the lock on the right when viewed from the outside.

Cardale personnel doors are available in the following finishes to match the door ranges: Pre-finished, Painted, Plastisol, Golden Oak, Rosewood.

Left hand opening available as an option

Glazing options

Bedford doors only available with Black or Stippled glazing

Selected Cardale garage door designs are available with glazing, with a range of attractive designs to blend with your house windows and doors. If the door does not have glazing in its standard design, the window panels will be fitted to the top design detail. Window surrounds on the Bedford doors are available in white or black only.

Glazing for Cardale up & over and side hinged doors is available in plain black, translucent or transparent finishes and in a range of lattice and feature styles.

The feature designs are hand laid using coloured films and antiqued lead.

Transparent or clear windows are see-through and allow light into the garage. Translucent windows have a stippled effect which allows light into the garage but are not see-through. Plain black windows are decorative only and don't allow any light into the garage.

Glazed windows are constructed from shatter resistant polycarbonate with a stippled, translucent anti-reflectant finish.

TERMS AND CONDITIONS

Terms and Conditions

Warranty

In the unlikely event of a warranty claim becoming necessary please contact the dealer or distributor who supplied the door.

To enable your claim to be processed without delay you should provide the following information:

- Your name, address and contact telephone number
- The original invoice and date of purchase
- A description of the door, the door type and the product number
- A description of the reason for the claim

Your dealer will then supply details of your claim, together with a copy of the warranty card supplied with the door and proof of purchase, to the warranty department at Cardale UK.

An assessment of the claim will be made. This may mean Cardale will need to come and inspect your door at your premises.

In the event that there is no legitimate claim under the terms of the warranty you may be liable for the costs of this visit. It is essential that you take note of the care and usage instructions provided with your door and you follow these instructions throughout the lifetime of your door.

The warranty does not cover:

- Improper installation
- Normal wear and tear
- Priming and other surface protection treatments
- Negligent or wanton destruction
- Incorrect or too late applied surface protection treatments
- Repair by a non-qualified installer
- Use of non-Cardale parts without the approval of Cardale
- Damage or removal of the product number or making it unidentifiable
- Improper operation
- External influences, such as fire, salts, water, acids, alkaline solutions, abnormal environmental influences
- Mechanical damage caused by improper transport or installation

All dark colours which are exposed to direct sunlight should be avoided. Dark coloured doors may undergo expansion due to heat absorption. Such instances are not covered by the guarantee, however normal performance will revert when the door has cooled down if the heat absorption has affected the door's performance.

All colour samples depicted in this brochure are as close to the original manufacturer's colours as possible. Garage doors supplied may vary in colour from the brochure representation.

Prices

All orders are accepted on the understanding that the goods will be subject to the prices ruling at the time of delivery, unless other terms are specifically agreed. All prices are in £ sterling and exclude VAT.

A 25% handling charge applies to all unwanted items on standard stock items only. Items must be returned unopened and in an unused condition.

All returns are subject to acceptance by Cardale UK Limited.

Specification

Due to the progressive outlook of the Cardale Group we reserve the right to alter specifications to design and manufacture without notification. All specifications and details are correct at the time of publication, errors and omissions excepted.

All Doors

Colour match Pairs of doors should be ordered together to obtain the best colour match, bearing in mind the limitations of the materials used in the construction. Timber garage doors cannot be ordered as matching sets.

Size variations As the size of a door changes in height and/or width, the panel frequency and profile can change, therefore doors of the same style but of different sizes can be significantly different in appearance.

Clearances All doors require operating clearances, i.e. the gap between the door panel and frame opening, these are inbuilt during manufacture and should not be reduced by means of infills, or draught-proofing.

Deflection When in the open position, all doors will display a level of vertical deflection or 'sag' across the width of the panel. Individual manufacturers' specifications should be consulted for exact tolerances.

Right to Cancel

Any bespoke product which is made to measure/customised, is exempt of any cancellation rights.

For full Warranty and Maintenance details please visit the website: www.cardale.com/wp-content/uploads/2022/04/Cardale-Warranty-Documents.pdf

Side hinged and side doors are supplied framed as standard

Frames

→ Up and over doors are available with the option of a frame and it is a recommended choice for a high quality installation. Single doors (up to 2438mm/8'0" wide) are supplied pre-framed and double doors (over 2438mm/8'0" wide) are supplied with the frame as a knock down kit for assembly when the door is installed.

Handles

→ Cardale handles are fitted in the bottom third of the door, depending on the door style. Steel up and over doors are fitted with handles which do not have a backing plate.

Command Transmitter

- Up to two applications possible
- Modern, compact design
- LED built-in light

Each Cardale operator is supplied with two transmitters

4-Point Locking

→ Cardale up and over garage doors are available with the Cardale 4-point locking system as an optional extra, offering even greater levels of security.
